

eseia, the European Sustainable Energy Innovation Alliance, is an association of leading membership organisations spanning a number of European countries operating in the field of sustainable energy systems, from energy provision to energy consumption in research, teaching and innovation. The cross-sector membership of scientific, business and political partners is dedicated to advancing innovation to implement renewables and sustainable technologies in Europe, as well as on a global scale.

Your benefits:

With your eseia membership you **improve your knowledge** of the trends in Renewable Energy Systems, and of the actors involved; You also **increase your visibility** in the innovation community, **simplify your access** to peers and **strengthen your success** with clients.

eseia Services

1. **Coordination of large scale proposal preparation and management**, from consortium building, brokerage and call intelligence to submission support and management;
2. **Involvement of eseia experts in EC policy-making and programme implementation**, i.e. SET Plan Integrated Roadmap, Horizon 2020 project evaluation aided by our Brussels hub;
3. **Joint eseia Thematic Projects and Strategic Initiatives** such as the eseia Education and Training Programme and eseia student and staff mobility across sectors;
4. **Access to news from the grapevine and first hand know-how of EC funding policies and programmes**, as well as on national and regional levels;
5. **Information sharing among eseia members** on joint innovation projects through interactive eseia working group workshops, twinning and business meetings;
6. **Cooperation with international partners** working in the area of renewable energies; eseia is nowadays a wide and active network which helps developing collaboration and opportunities in Europe and with partners outside Europe;
7. **Dissemination and exploitation of project results** by way of cross-sector cooperation, publications and dissemination workshops and eseia training courses.
