

## EIT Call for Knowledge Innovation Community on Urban Mobility

### Invitation for Potential Co-Locations Centers (CLCs)

**Funding:** EIT

**Topic:** Urban Mobility

**Indicative Budget:** 100 Mio. EUR / year EIT funding to KICs is max. 25% of their total budget over time with 75% to be attracted from other sources

**Deadline:** 12 July 2018

**Launch of the call:** 12-01-2018

**Period:** 7 years: 2019 - 2025

**Organisation:** Enterprise with Hub and CLCs (tbd)

**Call:** <https://eit.europa.eu/collaborate/2018-call-for-kics>

In order to apply for Co-Location Centres for KIC Urban Mobility (UM), the party interested in joining eseia's proposal as potential co-location center, needs to meet the **requirements** below:

- Being able to **present a total volume of between 15 - 40 Mio. €/year** as running and planned projects in the region on innovative urban mobility concepts;
- Have previously **involved the main actors** in the region, including cities, public authorities, higher education institutions, and research organizations, industry and citizens in joint activities;
- **Proved strong entrepreneurial leadership** by integrating new emerging technologies with new value chains and supporting the translation of academic research into products and services;
- Being able to create a **transdisciplinary working environment** involving different areas of knowledge;
- Being able to **commit to KIC UM by reserving personnel resources** for the proposal generation of some 100 person months between September 2017 – July 2018.

eseia welcomes expressions of interest for CLC partnerships for KIC UM **until 31 October 2017**.
