SMART AND GREEN TRANSITIONS IN CITIES / REGIONS

This conference is supported by:

UNIVERSITY OF TWENTE.

INTERNATIONAL CONFERENCE SMART AND GREEN TRANSITIONS IN CITIES / REGIONS

Dear relation,

We would like to invite you to our international conference *Smart and Green Transitions in Cities / Regions* which will be held on 24 and 25 April 2014 on the campus of the University of Twente. The University of Twente IGS (Institute for Innovation and Governance Studies) is organizing this conference in collaboration with the European Sustainable Energy Innovation Alliance (ESEIA), a European network of research institutions, industry and governments work together on transition to renewable energy on regional level. The conference includes both an academic and a more applied programme.

Part of practice-oriented programme on 24 April concerns the exchange of knowledge between academics and local organizations. It is particularly for this part 'ESEIA meets local business' that we would like to invite you. Participation means that your company will have the opportunity to present itself with a poster during the business market and enter into discussions about your activities with academics. This will be followed by a dinner with mixed tables of businesses and academics. The conference therefore offers excellent opportunities to expand your network in the scientific world and to discuss collaboration with academics from the University of Twente and other European universities. The business market and the dinner are scheduled for Thursday, 24 April from 5:30 p.m. to 9:00 p.m.

Detailed information about the conference can be found on the website:
<http://www.utwente.nl/igs/eseia/>

If you as a company would like to participate in the 'ESEIA meets local business' part of the programme, you can register on the website. If you would like to be present with more than a poster, please contact us via **info@igs.utwente.nl**.

Cost of participation is 75 euros per person, including lunch and dinner.

Kind regards,
Sjoerd van Tongeren
Executive Director IGS
