
eseia is seeking to recruit a
EC Project Manager
to the eseia Graz Office.

Post-graduate degree holders are invited to apply for a posting to the eseia Headquarter in Graz for a medium to long-term position (2 to 3 years).

eseia offers a high profile international job opportunity addressing major aspects of EC project acquisition and management in the field of **smart energy systems**. The person will work with the eseia Team on the **management of EC projects** as described in the eseia Work Programme and Budget. The position includes the following tasks (Horizon 2020, Horizon Europe):

- Preparation of deliverables for EC projects in cooperation with eseia members and partners from business, research, and education;
- Organisation of regular meetings with European project partners;
- Preparation of technical and financial project reports;
- Contribute to EC project planning for acquisition purposes;

Successful candidates will have the following profile:

- Post-graduate degree holders (Master's or PhD) and graduates (Bachelors);
- Experience with EC project management;
- Knowledge of sustainable energy systems;
- Excellent command of English both written and orally, other languages are an asset;
- State of the art computer skills;
- Ability to operate in a complex international environment;
- Eager to learn and develop and availability to travel internationally in Europe;

Please send your **application in English** including your CV, motivation letter, **project portfolio**, and references to the eseia Director Brigitte Hasewend, e-mail: brigitte.hasewend@eseia.eu. The salary will depend on the profile of the candidate and will be negotiated accordingly. The minimum salary will be € 30.000 gross per year.

Deadline for applications: **3 May 2019** starting 1 June 2019
eseia will contact shortlisted candidates for interviews by 10 May 2019.

For further information please contact Ms Brigitte Hasewend, Director of eseia, Tel. ++43 664 60 873 5280, Mandellstr. 15/II, 8010 Graz, Austria, e-mail: Brigitte.hasewend@eseia.eu.

eseia, the European Sustainable Energy Innovation Alliance, is a European association of 35 cross-sector organisations leading the field of sustainable energy systems, from energy provision to energy consumption in research, teaching and innovation. eseia has been validated under Horizon 2020 as a non-profit research organisation.
